FACILITIES FOR DISABLED PEOPLE

The Centre is fully accessible for disabled people. Blue Badge holders are able to park outside the main doors of the Conference Centre on Morrison Street as per normal legislation.

There is a disabled access door adjacent to the revolving doors at the main entrance to the centre. The door is an automatic sliding door operated by push button from the outside and infra-red sensor from the inside.

All areas of the centre are reached by lift. All lifts have braille buttons and spoken messages indicating which floor the lift is on and whether the doors are opening or closing. Additionally, all lifts have grab bars in them for any delegate with poor mobility.

We have telephone points throughout the Centre with lowered phones for wheelchair users.

On each floor of the Centre there are two adapted toilets, with grab rails; emergency buttons; lowered mirrors and fittings. Currently these toilets only allow for either a left or a right lateral transfer, not both.

In the Pentland auditorium we have an Induction Loop which is located in the central section of seats from row F to the rear of the auditorium. To use this the delegate switches their hearing aid to the "T" position to hear the same sound as the rest of the delegates. In the Lomond Suite we have an infra-red system to assist people with hearing impairments. The delegate is issued with a necklace receiver, where the delegate needs to switch their hearing aid to the "T" position, or a set of headphones. Both methods provide direct access to the same sound that is being heard by the rest of the delegates. In the smaller committee rooms, we can install a portable Induction Loop system if required. There is also an Induction Loop fitted at the main entrance desk.

We have a wheelchair platform lift, which can be utilised to take wheelchair users on to stages in the Lomond Suite breakout rooms; Cromdale Hall; and Strathblane Hall.

There are three spaces in the front of the Sidlaw and Fintry auditoria, which are available for wheelchair users. There are also six wheelchair spaces in the Pentland Auditorium.

We have good links with the Scottish Association of Sign Language Interpreters and can provide interpreters for all conferences at a reasonable fee. Additionally, information can be passed on regarding brailing of conference information or transferring written information onto tape for any delegates with a visual impairment.
