

TIMETABLE

Sunday, October 7, 2007

16:00	Registration Opens
18:30	Welcome Reception at the Palazzo del Casino

Monday, October 8, 2007

	Hall A	Hall B	Hall C	Posters
09:00	Opening Ceremony Opening Lecture Supported by an unrestricted educational grant from Cordis Johnson & Johnson			
10:15	Coffee Break & Posters			Guided Posters Angiogenesis, genes and basic research
10:45	New frontiers in interventional and surgical revascularization Supported by an unrestricted educational grant from Medtronic	Ischemia, hibernation and how to treat it	Acute myocardial infarction I	
12:45	Lunch break			
14:00	Epidemiology and Prevention	Focus session: Molecular biology and basic signaling mechanisms	Interventional cardiology Supported by an unrestricted educational grant from Abbott Vascular	
16:00	Coffee Break & Posters			Guided Posters Atherosclerosis, lipids and lipoproteins
16:30	Epidemiology and prevention of coronary artery disease	Vascular biology and endothelial function Supported by an unrestricted educational grant from Conor Medsystems	Arrhythmias and electrophysiology	
18:30	Moderate wine consumption and health followed by a wine tasting reception			

Tuesday, October 9, 2007

	Hall A	Hall B	Hall C	Posters
08:30	Hypertension, neurohormonal aspects	Infection, inflammation and pathogenesis of coronary artery disease	Basic research, angiogenesis, gene therapy	
10:15	Coffee Break & Posters			Guided Posters Acute coronary syndromes, acute myocardial infarction
11:00	Acute coronary syndromes, acute myocardial infarction	Cell therapy and gene therapy: The new approach to cardiovascular repair	Cardiac surgery I	
13:00	Lunch break			
13:30	"Take the ECG challenge!" session			
14:00	New diagnostic imaging techniques	Focus session: Electrophysiology and cardiac arrhythmias in the CCU	Clinical trial update	
15:30	Coffee Break & Posters			Guided Posters New non-invasive methods in coronary patients
16:15	Non-invasive imaging: MDCT and new echo techniques	Surgical aspects of coronary artery disease	Basic research, molecular biology	

Wednesday, October 10, 2007

	Hall A	Hall B	Hall C	Posters
08:30	Interventional cardiology	Myocardial function, heart failure	Lipids, vascular disease and drug therapy	
10:30	Coffee Break & Posters			Guided Posters Cardiac Surgery
11:00	New directions in interventional cardiology	Ventricular function, heart failure	Cardiac surgery II
