AstraZeneca is a major international healthcare business engaged in the research, development, manufacture and marketing of prescription pharmaceuticals and the supply of healthcare services. It is one of the top five pharmaceutical companies in the world with healthcare sales of over \$17.8 billion and leading positions in sales of gastrointestinal, oncology, cardiovascular, neuroscience and respiratory products. AstraZeneca is listed in the Dow Jones Sustainability Index (Global and European) as well as the FTSE4Good Index.

In Neuroscience, AstraZeneca is dedicated to providing medicines that have the potential to change patients' lives. The company already markets several products including SEROQUEL®, one of the fastest growing global antipsychotics with proven efficacy and a very favourable side effect profile; and ZOMIG®, a reliable migraine therapy and a leader within the triptan market. The Neuroscience pipeline includes leading approaches for the treatment of depression and anxiety, overactive bladder, dementia and stroke, pain control and anaesthesia.

Boehringer Ingelheim International GmbH

Binger Strasse 173
55216 Ingelheim am Rhein
Germany
Tel: +49 6132-77 0
Fax: +49 6132-72 0
E-mail: webmaster@ing.boehringer-ingelheim.com
Website: www.boehringer-ingelheim.com

The Boehringer Ingelheim Corporation is one of the world's 20 leading pharmaceutical companies. Headquartered in Ingelheim, Germany, it operates globally with 152 affiliates in 45 countries and a total of about 34,000 employees. Since it was founded in 1885, the family-owned company has been committed to researching, manufacturing and marketing novel products of high therapeutic value for human and veterinary medicine.

In 2003, Boehringer Ingelheim posted net sales of 7.4 billion euro while spending about one fifth of net sales in its largest business segment Prescription Medicines on research and development.

Cephalon France

20, rue Charles Martigny
94704 Maisons-Alfort Cedex
France
Tel: +33 1 49 81 80 55
Fax: +33 1 49 81 82 02
E-mail: dattal@cephalon.fr

Founded in 1987, Cephalon Inc. is an international biopharmaceutical company dedicated to the discovery, development and marketing of innovative products to treat wake fullness, vigilance and neurological disorders, cancer and pain.

Cephalon Inc. currently employs about 2000 people in the United States and Europe in Research & Development activities, manufacturing and operations.

Headquartered in West Chester, Pennsylvania, CEPHALON's major offices are located in England, Germany, and France with 4 manufacturing facilities: one in Salt Lake City and three in France.

In 2001, Cephalon Inc. acquired the French pharmaceutical company Laboratoire L. Lafon. In France, the company employs about 500 people with major offices in Maisons-Alfort, a Research & Development center, 2 manufacturing facilities (Nevers, Mitry-Mory) and a Galenic Development Unit (Savigny le Temple).

Cephalon France markets 15 products both in hospital and retail markets.

The major brands are SPASFON® (phloroglucinol), MODIODAL® (modafinil), FONZYLANE® (bufloxedil), ACTIQ® (oral transmucosal fentanyl citrate), OTRASEL® (selegiline hydrochloride). Some of them benefit from the unique drug delivery innovation: LYOC. PARALYOC®, PROXALYOC®, LOPERAMIDE LYOC®.

The European Neurological Society was founded in 1988 and has today a membership of 850 individual neurologists.

The official journal of the Society is The Journal of Neurology which is published by Steinkopff Verlag, Darmstadt, Germany.

The aims of the Society are:

- to provide continuing education in all fields of neurology and
 - to create a scientific forum for the presentation of original research work for all neurologists.
- Since 1988, annual meetings take place in various European cities. The 2005 meeting will be held in Vienna, June 18 – 22.

For more information see: www.ensinfo.com; www.steinkopff.springer.de

European Parkinson's Disease Association – EPDA

Website: www.epda.eu.com

“To develop a dialogue between science and society”

Formed in 1992 with 9 PD organisations, it now has a membership of 35 European Organisations and 8 Associate members. It is non-political, non-religious, and non-profit making, concerned with the health and welfare of people with PD and their families. Collaboration with European patient and neurological organisations, European Commission, World Health Organisation, World Federation of Neurology, and pharmaceutical industry have resulted in the development of QoL research projects, education materials and multidisciplinary conferences

The European Sexual Dysfunction Alliance (ESDA)

Avenida de Menendez Pelayo 75
Bajo derecha 3
28007 Madrid
Spain
Tel: +34 91 501 9513
Fax: +34 91 501 9668
E-mail: info@esda.eu.com
Website: www.esda.eu.com

The European Sexual Dysfunction Alliance (ESDA) is an umbrella organisation for patient support groups across Europe.

There are currently twelve helplines affiliated to ESDA in the following countries: UK, Spain, Germany, Greece, Portugal, Israel, Turkey, Ireland, France, Sweden, Denmark and Italy. Each patient organisation is responsible for their own management and funding. Information is provided via a telephone helpline, by email and post. Fact sheets on different sexual problems are available and can be sent to callers who request them.

ESDA's main objectives are:

- To bring together and support those Associations established in European countries (or elsewhere) which are concerned with the issues of Sexual Dysfunction and its impact on patients and other members of the general public
- To undertake research into any aspects of Sexual Dysfunction and its impact on individuals and groups and to make available the useful results of such research studies and information
- To cooperate with organisations to further the understanding and knowledge of Sexual Dysfunction

ESDA encourages joint activities of its affiliated members aimed at raising awareness of sexual problems, their diagnosis and the treatments available.

European Dystonia Foundation

69 East King Street
Helensburgh
Argyll & Bute G84 7RE
UK
Tel/Fax: +44 1436 678799
Website: www.dystonia-europe.org

The European Dystonia Federation (EDF) was formed in June 1993 and is a union of national self-help patient-groups supporting people with any form of the neurological movement disorder known as dystonia. Membership of the Federation presently consists of 19 national dystonia support groups of individual countries in Europe.

Dystonia is the term used to describe particular types of involuntary and abnormal movements and postures which are seen in a variety of neurological disorders. Dystonia does not affect other normal functions of the brain. It is likely that there are more than 500,000 people across Europe with some form of dystonia.

GE Healthcare (formerly Amersham Health)

Sandakerveien 100c
Postboks 4220 Nydalen
0401 Oslo

For your shopping convenience, many items are available in our Online Store.

Guillain Barré Syndrome Foundation International

P.O. Box 262
Wynnewood, PA 19006
USA
Tel: +1 610 667 0131
E-mail: info@gbsfi.com

The Guillain-Barré Syndrome Foundation International was founded 1979, Philadelphia, USA for sufferers of Guillain-Barré Syndrome (GBS) and Chronic Inflammatory Demyelinating Polyneuropathy (CIDP). It provides emotional support, personal visits, where possible, to those currently experiencing the illnesses - and their families.

It supplies comprehensive literature about the syndrome and has a website: www.gbsfi.com.

It educates the public and medical community about the illnesses and the Foundation.

It supports and fosters research into the cause, treatment and other aspects of the illnesses.

It encourages and develops worldwide support groups. Information available in English, Spanish, German, French, Dutch, Italian, Japanese.

H. Lundbeck A/S

Ottiliavej 9
2500 Valby-Copenhagen
Denmark
Tel: +45 36 30 13 11
Fax: +45 36 43 89 00
Website: www.lundbeck.com

Lundbeck founded in 1915, is the only fully integrated pharmaceutical company focusing entirely on developing new and effective therapies for central nervous system (CNS) disorders.

Since the 1950s, Lundbeck has had a strong position within the treatment of neurological and psychiatric disorders and was one of the first companies to develop and market several effective treatments for dementia, depression and psychosis.

Lundbeck has recently launched two new drugs: Ebixa® for the treatment of Alzheimer's disease and Cipralex® (escitalopram) for the treatment of depression.

Lundbeck founded in 1997 the Lundbeck Institute which provides educational activities like seminars, printed materials and information on the internet.

All the books on display can be ordered/bought directly at the stand or via our website. We can also order you free sample copies of the journals on display and take subscription orders. Whatever your book requirements, Wisepress will be happy to help - whether you are an author seeking a publisher or having difficulty obtaining a title, our professional staff will assist you.

World Federation of Neurology

12 Chandos Street
London W1G 9DR
UK
Tel: +44 20 7323 4011
Fax: +44 20 7323 4012
E-mail: WFNLondon@aol.com
Website: www.wfneurology.org

Founded in 1957, the World Federation of Neurology is comprised of neurological societies in 90 countries. Our mission is focused on prevention and treatment of brain disorders and on raising awareness of neurology's importance, through promotion of international programmes of education, with particular emphasis on emergent nations, and by fostering the best standards of practice. The WFN Continuing Medical Education Program, for example, which is currently implemented in 30 countries, has achieved a high level of success in terms of its impact on actual practices.

ZLB Behring

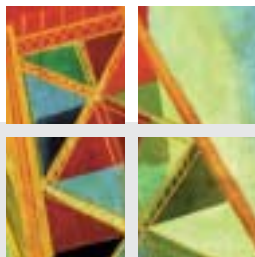

Wankdorfstrasse 10
CH-3000 Bern 22
Switzerland
Tel: +41 31 344 44 44
Fax: +41 31 344 55 55
Website: www.zlbbehring.com

ZLB develops, produces and markets high-quality biological drugs made from human plasma and operates plasma collection centres and a laboratory in the United States of America.

ZLB is one of the world's leading manufacturers of intravenously administered polyvalent immunoglobulins. Immunoglobulin preparations and albumin solutions are manufactured in accordance with international safety and quality standards at the production plants of ZLB Behring in Bern (Switzerland) which have been licensed by the Swiss health authorities and the US FDA.

The products of ZLB are distributed worldwide: in the USA, United Kingdom, Germany, Belgium, Italy and in Switzerland by companies of the ZLB group, in other countries by distributors. ZLB will further expand its network of European affiliates by opening branches in other countries.

The ultimate Parent Company of the ZLB Group of Companies is CSL Limited, a pharmaceutical company which operates worldwide from headquarters in Melbourne, Australia.
