

TIMETABLE

SATURDAY, AUGUST 23, 2008

Hall D	Hall E	Hall F	Hall G	Hall H	Hall I	Hall J	Hall K	Hall L
09:30-11:00 Free Teaching Course: "How do I examine...?"								
11:30-13:30 Teaching Course 1: Movement disorders: skills and basics in diagnosis and therapy - basic clinical knowledge	11:30-13:30 Teaching Course 3: Stroke epidemiology and risk factors: a clinical update - basic clinical knowledge	11:30-13:30 Teaching Course 5: Luigi Amaducci Teaching Course on dementia - basic clinical knowledge	11:30-13:30 Teaching Course 11: Autonomic disorders in neurology: diagnosis and management	11:30-13:30 Teaching Course 15: Sleep disorders in neurology	11:30-13:30 Teaching Course 7: Practical clinical management of epilepsy - basic clinical knowledge	11:30-13:30 Teaching Course 13: Neuromuscular disorders	11:30-13:30 Teaching Course 9: Management of early multiple sclerosis - basic clinical knowledge	11:30-13:30 Teaching Course 17: Therapy in neurology I
14:30-16:30 Teaching Course 2: Movement disorders update - advanced	14:30-16:30 Teaching Course 4: Update on diagnostics in stroke - advanced	14:30-16:30 Teaching Course 6: Luigi Amaducci Teaching Course on dementia - advanced insight in treatment options	14:30-16:30 Teaching Course 14: Amyotrophic lateral sclerosis (ALS)	14:30-16:30 Teaching Course 16: Neuro-ophthalmology	14:30-16:30 Teaching Course 8: Advanced clinical aspects of epilepsy for the clinician	14:30-16:30 Teaching Course 12: Evidence-based medicine headache treatment	14:30-16:30 Teaching Course 10: Management of early multiple sclerosis - advanced	14:30-16:30 Teaching Course 18: Therapy in neurology II
13:30-14:30 Lunch Break								
16:30-17:00 Coffee Break								
17:00-18:30 Eli Lilly Satellite Symposium: Testing the amyloid hypothesis in Alzheimer's disease								

19:00 Opening Ceremony followed by Welcome Reception at the Municipal Congress Centre (located 12 min walk from registration area). Transportation from IFEMA will be provided for those who need it.

Pre-registration (at an additional cost) is required for courses.

SUNDAY, AUGUST 24, 2008

Hall A	Hall B	Hall C	Hall D	Hall E	Hall F	Hall I	Hall K
08:30-10:30 Main Topic 1: Silent strokes - how noisy are they?			08:30-10:30 Main Topic 3: Neurostimulation for epilepsy	08:30-10:30 Main Topic 2: Trigemino-autonomic cephalgia			
11:00-12:30 Short Communications 1: Cerebrovascular diseases 1			11:00-12:30 Short Communications 1: Epilepsy	11:00-12:30 Short Communications 1: Headache and pain	11:00-12:30 Short Communications 1: Muscle and neuromuscular junction diseases; peripheral nerve disorders		11:00-12:30 Tournament for Young Neurologists 1 (clinical)
13:00-14:30 UCB Satellite Symposium: Dopaminergic treatment in restless legs syndrome			12:30-14:30 Lunch Break, Exhibition and Poster Visit				
15:00-17:00 EFNS/EUNA Special Session: Neurology and art - The good life			13:00-14:30 Pfizer Satellite Symposium: Looking at chronic pain - the patient perspective	13:00-14:30 Novartis and Orion Pharma Satellite Symposium: Optimising treatment in the evolution of Parkinson's disease	15:00-17:00 Special Session: EFNS-EUREPA - epilepsy symposium: Are new drugs not better than old ones?	15:30-17:00 Focused Workshop 5: Enhancement of stroke recovery	
17:30-19:00 Eli Lilly Satellite Symposium: Pain: from neuroimaging to clinical practice			15:30-17:00 Focused Workshop 1: Rehabilitation approaches in movement disorders	15:30-17:00 Focused Workshop 2: REM and NREM motor and behavioural disorders	17:00-17:30 Coffee Break, Exhibition and Poster Visit		
20:30 Special course "Management of the dizzy patient" with Tapas Dinner at Intercontinental Hotel.			17:30-19:00 Talecris Biotherapeutics Satellite Symposium: Advances in the understanding of IVIG therapy	17:30-19:00 Boehringer Ingelheim Satellite Symposium: Dopamine agonists in clinical practice - what is new?			
14:30-16:00 Poster Session 1 in the poster area							

MONDAY, AUGUST 25, 2008

Hall A	Hall B	Hall C	Hall D	Hall E	Hall F	Hall I	Hall K
08:30-10:30 Main Topic 4: Movement disorders in 2008 - what's new, what works?			08:30-10:30 Main Topic 6: Traumatic brain injury	08:30-10:30 Main Topic 5: Complications in neuro- critical care patients			
11:00-12:30 Short Communications 2: Movement disorders			11:00-12:30 Short Communications 2: Critical care; neurotraumatology	11:00-12:30 Short Communications 2: Rehabilitation	11:00-12:30 Short Communications 2: Cerebrovascular diseases 2		11:00-12:30 Tournament for Young Neurologists II (basic)
13:00-14:30 UCB Satellite Symposium: Seizure control and beyond		13:00-14:30 Pfizer Satellite Symposium: Donepezil and Alzheimer's disease: the value and benefit of treatment across the spectrum of dementia	13:00-14:30 Lundbeck and Ieva Satellite Symposium: Rasagiline over the course of Parkinson's disease	13:00-14:30 Boehringer Ingelheim Satellite Symposium: New revelations in ischaemic stroke management			
	14:30-17:00 Special Session: European Basal Ganglia Club (EBGC)	15:30-17:00 focused Workshop 6: Differential diagnosis in paraneoplastic neurologi- cal syndromes	15:30-17:00 Focused Workshop 7: Brain death criteria	15:30-17:00 Focused Workshop 8: Multiple sclerosis (MS): what can we learn from genetic studies?	15:00-17:00 Spanish Special Session: Diagnostic challenges in neurology - Part 1	15:30-17:00 Focused Workshop 9: Animal models of migraine	15:30-17:00 Focused Workshop 10: Herpes virus infection of the nervous system
17:30-19:00 Takeda and Santhera Satellite Symposium: Moving forward: Advances in the management of Friedreich's ataxia		17:30-19:00 GSK Satellite Symposium: Continuous delivery of ropinirole in Parkinson's disease: from clinical trials to clinical practice	17:00-17:30 Coffee Break, Exhibition and Poster Visit	17:30-19:00 Lundbeck and Myriad Pharmaceuticals Satellite Symposium: New horizons in Alzheimer's disease diagnosis and treatment: are we ready?			
20:30 Social event: "Highlights of Carmen Opera" at Teatro Lope de Vega (metro stop: Callao)							
14:30-16:00 Poster Session 2 in the poster area							

TUESDAY, AUGUST 26, 2008

Hall B	Hall D	Hall E	Hall F	Hall G	Hall I	Hall J
08:30-10:30 Main Topic 7: From vascular dementia to CADASIL: clinical and pathogenic aspects	08:30-10:30 Main Topic 8: Disorders of the autonomic nervous system: from pathophysiology to diagnosis and treatment	08:30-10:30 Main Topic 9: New trends in MS therapy				
10:30-11:00 Coffee Break and Exhibition Visit						
11:00-12:00 Short Communications 3: Ageing and dementia	11:00-12:00 Short Communications 3: Autonomic nervous system disorders	11:00-12:00 Short Communications 3: Multiple sclerosis	11:00-12:00 Late Breaking News		10:30-12:00 Special Session: History of Neurology	11:00-12:00 Short Communications 3: Cognitive neurology/ neuropsychology; neuroimaging
		12:00-13:00 First Lecture on Clinical Neurology				
13:00-14:30 Lunch Break and Exhibition Visit						
	13:00-14:00 Pfizer Satellite Symposium: Innovative approaches to Alzheimer's disease: develop- ing the next generation of treatment					
14:00-16:00 Special Session: Second Joint Session EFNS – Mediterranean Neurological Societies: Neuro-infectious diseases	14:30-16:00 Focused Workshop 11: Update on progressive supranuclear palsy (PSP)	14:30-16:00 Focused Workshop 12: Transient loss of consciousness; syncope vs. epilepsy	14:30-16:00 Focused Workshop 13: Medication overuse headache: risk factors and treatment guidelines	14:30-16:00 Focused Workshop 15: Manipulation of afferent inputs in motor rehabilitation	14:30-16:00 Focused Workshop 14: The diagnostic role of muscle biopsy in the investigation of patients with myalgias	14:00-16:00 Spanish Special Session: Diagnostic challenges in neurology - Part II
		16:15 Closing Session	16:45 Farewell Reception
