# Preliminary Program

## "Anatomy for Regional Anaesthesia" Lectures and Workshops

### Friday, October 5th

- 15.00 h                    **Registration**
- 16.00 – 16.15 h        **Opening**  
Prof. V. Paver-Erzen / SI
- 16.15 – 18.15 h        **Local anaesthetics, pharmacology and toxicity**  
N. Krecevski-Skvarc / SI
- Basics of ultrasonography for PNB**  
J. van Geffen / NL
- Thoracic and lumbar epidural blocks**  
V. Novak-Jankovic / SI
- Paravertebral Blocks**  
S. Gligorijevic / CH
- 19.00 h                    Congress Dinner (included in registration fee)

### Saturday, October 6th

- 08.15 – 10.00 h        *Upper extremity blocks*
- Anatomy of the brachial plexus**  
D. Ravnik / SI
- Brachial plexus blocks above the clavicle**  
M. Gielen / NL
- Brachial plexus blocks below the clavicle**  
H. Rettig / NL
- Mid humeral block**  
J. van Geffen / NL
- Nerve blocks at elbow and wrist level**  
S. Gligorijevic / CH
- 10.00 – 10.30 h        Coffee break
- 10.30 – 12.00 h        **Workshop I – Upper extremity blocks  
on cadavers**
- Ultrasonography for upper extremity blocks**

12.00 – 13.30 h	Lunch
13.30 – 16.00 h	<p><i>Lower extremity blocks</i></p> <p><b>Anatomy of the lumbo-sacral plexus</b> D. Ravnik / SI</p> <p><b>Lumbar plexus block</b> <b>anterior and posterior approaches</b> S. Gligorijevic / CH, J. van Geffen / NL</p> <p><b>Proximal sciatic nerve blocks</b> S. Gligorijevic / CH</p> <p><b>Distal sciatic nerve blocks</b> H. Rettig / NL</p> <p><b>Peripheral nerve blocks – catheter techniques</b> N. Vintar / SI</p>
16.00 – 17.30 h	<b>Workshop II – Lower extremity blocks</b>
17.30 – 18.30 h	<p><b>Peripheral nerve blocks –</b> <b>Landmarks on live models</b> <b>Discussion with all speakers</b></p>
18.30 h	END of Workshop

**Registration**      **Fee: Euro 120.-**

**Please download the registration form from ESRA webpage  
[www.esraeurope.org](http://www.esraeurope.org) and fax it to:**

# New: Stimuplex® HNS 12

The high end in nerve stimulation

- Alarm screens and acoustic signals inform the user of relevant deviations
- Direct access keys allow quick change of stimulus frequency and impulse duration
- Easy-to-navigate menu in 26 languages
