PEDIATRIC CARDIOLOGY AND CARDIAC SURGERY MEETING

P R O G R A M

Dear Friends and Colleagues

The Belgian Foundation of Research in Pediatric Cardiology is pleased to invite you to the first edition of an international congress dedicated to new trends and the future in your speciality. The Pediatric Cardiology and Cardiac Surgery Department from the 5 Universities involved in the care of patients with congenital heart diseases in Belgium, have joined their energy and enthusiasm to organise this unusual new type of congress.

Objective

State of the art presentations on the perspectives in research and patient care for congenital heart diseases. This congress is organized to allow experts to present relevant and concise lectures in leading fields of research and progress.

Faculty

More than 25 international speakers with worldwide recognised expertise.

Audience

Pediatric cardiologists and cardiac surgeons interested in congenital and structural heart diseases. Anesthesiologists and pediatricians are welcome to attend. This congress is currently undergoing evaluation for CME accreditation by the Belgian Ministry of Health.

Location

Brussels - the Heart of Europe. This course is scheduled to allow participants to balance the educational aspects of the program with freetime, possibly with family, in a city full of interest. The social program will focus on Art Nouveau. Reaching Brussels is easy by train, by air or by car. The congress will be held in the Sodehotel Convention Center, with easy connection to the centre of the town (7 km) and airport (3 km).

THURSDAY OCTOBER 4 2007

9:00	9:30	Quality of life in adults born with congenital heart disease Philippe Moons	Leuven
9:30	10:00	Genetics and cardiopathy Koen Devriendt	Leuven
10:00	10:30	Connective tissue disease Bart Loeys	Gent
10:30	11:00	COFFEE	
11:00	11:30	Post therapeutic cardiomyopathy Steven Lipshultz	Miami
11:30	12:00	Obesity and metabolic syndrome Luc Van Gaal	Antwerp
12:00	12:30	Diabetes and the heart Bert Suys	Antwerp
12:30	13:45	LUNCH	
13:45	14:15	Metabolic diseases Damien Bonet	Paris
14:15	14:45	Genetics and arrhythmia Pedro Brugada	Brussels
15:00	15:30	Hypertrophic cardiomyopathy Steven Lipshultz	Miami
15:30	16:00	Pulmonary hypertension Robert Naeije	Brussels
16:00	16:30	Stem cells Stefaan Janssens	Leuven
16:30	17:00	COFFEE	
17:00	18:30	ABSTRACTS PRESENTATION	
19:30	22:30	GALA DINNER AT CHÂTEAU DES SOURCES	

FRIDAY OCTOBER 5 2007

8:30	9:00	Futuristic aspect of cardiac imaging Gregory Ensing	Ann Harbor
9:00	9:30	MRI and interventional MRI Andrew Taylor	London
9:30	10:00	3D Mapping in electrophysiology John Triedman	Boston
10:00	10:30	Echo 3D Folkert Meijboom	Rotterdam
10:30	11:00	COFFEE	
11:00	11:20	CT scan Nash Damryi	Brussels
11:20	11:40	Tissue Doppler imaging Luc Mertens	Leuven
11:40	12:20	Endothelial dysfunction in children John Deanfield	London
12:20	13:30	LUNCH	
13:30	14:10	Bypassing the right heart Marc de Leval	London
14:10	14:40	Tissue and valve engineering in vitro Wim Flaming	Leuven
14:40	15:10	Tissue and valve engineering in vivo Guido Van Nooten	Gent
15:10	15:50	Restoring the normal anatomy, the dream of a lifetime Yves Lecompte	Paris
15:50	16:20	The future in pediatric cardiac assistance Bart Meyns	Leuven
