## **Bayer Pharmaceuticals Corporation**

Bayer HealthCare, Pharmaceutical Division  
400 Morgan Lane  
West Haven, CT 06516  
USA  
Tel: +1 203 812 2000  
Website: [www.bayerpharma-na.com](http://www.bayerpharma-na.com)

Bayer HealthCare, Pharmaceutical Division, invites you to visit booth #19 entitled "Working Toward the Future of Neuroprotection in Ischemic Stroke". You will find an educational video animation that looks at the effect of stroke on neuronal cells and the theoretical role of 5-HT1A agonists.

Bayer HealthCare, Pharmaceutical Division, also invites you to attend our satellite symposium entitled "Where do we stand with Neuroprotection" on Thursday evening, June 24 from 18:00 - 19:30 in Hall C. We will also host a number of scientific posters.

We are pleased to have the opportunity to contribute to the success of this meeting.

## EXHIBITION CATALOGUE

### **Biosite Inc.**

11030 Roselle Street  
San Diego, CA 92121, USA  
Tel: +1 858 597 4815 ext 3239

Website: [www.stemcellnetwork.ca](http://www.stemcellnetwork.ca)

The Canadian Stroke Network is an independent, not-for-profit corporation. It was established in 1999 to reduce the burden of stroke through leadership in research innovation. It is made up of more than 100 of Canada's best and brightest scientists, clinicians, rehabilitation specialists and knowledge-translation experts from 24 universities across the country. Headquartered at the University of Ottawa, the Canadian Stroke Network brings together partners from government, industry and the non-profit sector, including the Heart and Stroke Foundation.

The Canadian Stroke Network is part of the federal government's flagship science and technology initiative, called the Networks of Centres of Excellence.

## EXHIBITION CATALOGUE

Cerebricon Ltd. is a fully integrated, privately owned, collaborative research organization focused solely in the area of preclinical in vitro and in vivo models of disease.

Cerebricon models are used to provide proof of concept and proof of principle for drug candidates for use against CNS diseases such as Stroke.

Cerebricon aims to deliver the highest quality, most comprehensive and affordable research services, and because our expertise is focused only in the area of models of CNS disease, we can claim to offer 14 different Stroke models along with novel approaches to these models utilizing small animal MRI and Micro-PET.

Additionally an extensive, fully validated, battery of behavioral tests is available.

## **Grupo Ferrer Internacional, S.A.**

Gran Via Carles III, 98  
E-08028 Barcelona  
Spain  
Tel: +34 93 600 37 00  
Fax +34 93 330 80 57  
E-mail: groupmanagement@ferrergrupo.com  
Website: www.ferrergrupo.com

Grupo Ferrer originated from the chemical company M. y F. Ferrer, which in 1959, as a result of its increasing pharmaceutical activity, was renamed Laboratorios Ferrer, S.L. In 1975 it became Ferrer Internacional, S.A., an organization which eventually developed into the Group's parent company.

At present Grupo Ferrer is made up of 30 companies, and it has broadened its activity range, currently operating in Pharmaceuticals, Food and Fine Chemicals, with the overall aim to improve people's health and quality of life.

The Group is based on a solid research and industrial tradition, as well as on a highly qualified human team, with a permanent desire for improvement, an ethos which its founder, Carlos Ferrer Salat, spread among his collaborators.

### **Heart & Stroke Foundation of B.C. and Yukon**

1212 West Broadway  
Vancouver, BC V6H 3V2  
Canada  
Tel: +1 604 737 3402  
Fax: +1 604 736 8732  
E-mail: [tgies@hsf.bc.ca](mailto:tgies@hsf.bc.ca)  
Website: [www.heartandstroke.bc.ca](http://www.heartandstroke.bc.ca)

The Foundation has funded research, advocacy, health promotion and patient programs since 1955. This work has helped reduce the premature death rate from heart disease and stroke by 25% in the past ten years.

About 450,000 donors throughout British Columbia and the Yukon contributed to the \$12.1 million raised in 2003 to support the Foundation's work. We devoted over \$5 million in 2003 to 46 scientific research studies regarding stroke and heart disease.

In addition, 14,000 volunteers help staff at our 11 offices to raise funds and public awareness of stroke and heart disease.

## National Stroke Association

9707 E. Easter Lane  
Englewood, CO 80112  
USA  
Tel: + 1 303 649 9299  
Fax: +1 303 649 1328  
E-mail: [sjanuchowski@stroke.org](mailto:sjanuchowski@stroke.org)  
Website: [www.stroke.org](http://www.stroke.org)

Since 1984 the National Stroke Association (NSA) has been actively dedicated to fulfilling its mission to reduce the incidence and impact of stroke. NSA supports chapters, stroke centers and support groups. NSA strives to make a powerful impact on each discipline of the stroke continuum (prevention, acute treatment and rehabilitation) by providing education, materials, technical support and training to develop and implement the most effective programs possible. In addition, NSA has firmly established itself as an organization highly capable of engaging national thought leaders in exploring contemporary stroke issues, as well as stroke treatment options.

## Novo Nordisk

Hummeltoftevej 49  
2830 Virum  
Denmark  
Tel: +45 7777 8888  
Fax: +45 4442 1848  
E-mail: [SLAD@novonordisk.com](mailto:SLAD@novonordisk.com)  
Website: [www.novonordisk.com](http://www.novonordisk.com)

Come by the Novo Nordisk booth and learn more about NovoSeven (rFVIIa) which is the recombinant form of the natural activated blood factor VII – one enzyme in the complex, multi-stage process of normal blood clotting. NiaStase was developed in the 1980s for managing bleeds in those patients with haemophilia A or B who had developed antibodies against FVIII or FIX. Large clinical trials to assess the efficacy of NovoSeven in managing bleeds in trauma patients and in patients with intracerebral hemorrhage will be released in 2004.
